## Only Half of Voters Go to Polls Saturday

## 5th War Loan Dive Ends on July 29

## No Changes Are Made in Officers

### Religious Census Report Complete

**Church Denominations of Canyon Citizens Listed in Report of Recent Census**

The religious census taken by volunteer workers from the various churches of Canyon two weeks ago cannot be completed entirely because some are not at home enough and some are always skipped by the workers, and workers are scarce for the follow-up necessary to glean every house.

The work done was splendid, however, and the report from the names obtained is as follows:

Assembly of God	53
Baptist, Anti-Missionary	26
Baptist, Fundamentalist	2
Baptist, Missionary	705
Christian (Disciples)	144
Church of Christ	212
Church of God	3
Christian Science	4
Episcopal	11
Free Holiness (Lindsey)	27
Holiness	7
Lutheran	3
Methodist	527
Nazarene	5
Pentecostal	25
Presbyterian	222
Roman Catholic	14
No preference stated	56

Another interesting fact revealed by the cards returned in the census is that there are so many "mixed" families. Four hundred sixty-one people are in these mixed families and seventeen denominations are represented in them.

Hundreds of the people listed are not enrolled in any Sunday Bible School and probably are not studying the Bible in any systematic way. Hundreds have their names on church books in other towns and communities, thus robbing Canyon and its churches of their full influence in moral and spiritual matters.

It is hoped that the visits made to gather this information will serve as a reminder that the church people of Canyon are anxious to have every citizen of the entire community activity in touch with one of the churches. Canyon people would like to have a little city second to none in education and real religion. Every citizen can help achieve this worthy goal.

### 4-H Boys Camp Attended By Few Randall Co. Boys

The annual 4-H Boys Encampment for the Panhandle District is being held this week at Lake McClelland near McLean.

About 250 boys from 21 counties who have earned recognition by their work in food production are eligible to attend.

Several Randall county boys who had earned a trip to the Camp could not go on account of the delayed wheat harvest and the rush of work on the home farm.

The program this year will include swimming, boat rides, ball games, rifle matches and other sports. These are all under the direction of group leaders for each sport.

In addition to the outdoor program there will be a fine picture show Thursday evening.

One of the highlights of the entire camp program will be a visit to the Camp by S/Sgt. Arthur B. Ritenour of Amarillo Field. Sgt. Ritenour spent 21 months in the South Pacific where he served as a turret gunner on a Flying Fortress. He wears many decorations and will tell the boys of some of his experiences. The following boys accompanied County Agent W. H. Upchurch to the Camp Wednesday morning: Billy Moore, J. D. Sanders, Meade Michael, Douglas Brazil, Stanley Lair, Tommy Gooch, Albert Craig and Dennis Burrus.

Each boy who attends the Camp takes along his cot, bed roll, mess kit, towels and swim suit.

### Former Judge of Randall County on Visit Thursday

W. D. Scott of Frederick, Okla., spent Thursday here visiting with old friends. He was county judge of Randall county 30 years ago, serving two terms. He was the first lawyer to be elected to this office.

Judge Scott has served as county judge in Oklahoma for several years. He was on a visit to the home of his son in Amarillo.

### Dr. C. E. Donnell Rejects Offer of State Position

Dr. C. E. Donnell was offered a state position Saturday as manager of the State Farm Colony near Austin. He has rejected the offer, preferring to remain in Canyon to continue with his practice and to look after his stock farm near Canyon.

Dr. Donnell has lived on the Plains for 53 years. He practiced medicine at McLean and Silverton before moving to Canyon and opening his offices 23 years ago. He would not be happy any other place in Texas. While appreciative of the offer made him, he believes that his obligation is to the families in Randall county who have so long relied upon him for medical services.

### Son-in-law C. O. Cooper Died at Panhandle Friday

O. W. Cannedy, son-in-law of Mr. and Mrs. C. O. Cooper and prominent farmer of Panhandle, died suddenly Friday night. He was busy loading wheat from piles on the ground and dropped dead.

Mrs. Cannedy is the oldest daughter of Mr. and Mrs. C. O. Cooper.

Mr. and Mrs. C. O. Cooper, Mr. and Mrs. Clay Cooper, and Mr. and Mrs. T. E. Allen, Misses Mary Lee and Hazel Cooper went to Panhandle Saturday to be with Mrs. Kennedy.

### Personnel Managers Meeting at Borger

Dean R. P. Jarrett and Dr. Lee Johnson, of the business administration department of the college, attended a meeting of the association of personnel managers of the Panhandle at Borger Tuesday night.

The meeting was held at the B. F. Goodrich plant.

### Small Amount of Wheat To Be Cut

**Still Considerable Amount of Barley on Ground; Cars Available During Week**

Harvest in Randall county will be practically completed this week if there is no more rain.

It was estimated yesterday that about 10% of the wheat in Randall county remained in the fields. However, the major part of this was in the northwest part of the county where harvest is always a little behind the balance of the county. Only about 5% remains in the fields in the Canyon territory.

Railroad cars were available to the local elevators Tuesday and yesterday, but permits to ship the carloads to the terminals have been coming through slowly.

Little wheat is reported on the ground in this section of the county. There is a considerable amount of barley piled on the ground. Much of this has been damaged by the continued rains. Some barley in bins is heating and will suffer, according to reports received here.

A large part of the wheat crop was being put into government loans, until this week when storage was not available at the terminals. Cash offers were made only at Galveston for export trade.

### Sgt. Jesse Bewley Wounded in Italy According Report

T/Sgt. Jesse W. Bewley has been wounded twice and has received the Purple Heart which he sent to his mother, Mrs. M. F. Bewley. Sgt. Bewley writes that his wounds are not serious, that he is in a rest camp hoping to report back to the front soon.

Sgt. Bewley left Canyon with the National Guard unit which is in the 142nd Infantry with the Texas 36th that has been seeing such hard service ever since they entered the European theatre.

### Union Services to Begin By Three Local Churches

Beginning on Sunday, July 30, the Methodist, Presbyterian and Christian churches will enter into a series of Sunday evening union services. This series is planned for a period of six Sundays and it follows a precedent of several years' standing in our community. All who wish to participate in the services are welcome. The first of these services will be held at the Methodist church at 8 p. m. next Sunday. Joseph Findley, minister of the Christian church, will be speaker.

Mr. and Mrs. Velton Sargee visited last week end in Shamrock.

### FIFTH WAR LOAN

Over-All quota assigned to Randall County \$195,000.00  
Total bond sales and allocations, (including E Bonds credited on the Drive through July 25th) 267,580.50

Amount in excess of Over-All quota, including E Bonds credited through July 25th \$72,580.50

### E BONDS

E Bonds quota, (this being part of the Overall quota) \$110,000.00  
E Bonds sales at Canyon, credited on the Drive through July 25th \$98,875.00

Credit allocation is given this county on the E Bond quota account purchases made by Texans in the Service; the allocation being based, so we understand, on county population. The credit allocation to this county being 11,200.00

Total E Bonds sales and credits through July 25th \$110,075.00

Only a few days remain in which purchases of E Bonds may yet be credited on the quota of the Fifth War Loan Drive. And wouldn't it be just fine if the total amount of E Bonds purchases and credits reaches a sum in excess of the quota by an amount equal to or more than the E Bonds credit allocation shown above?

Everyone has been splendid in helping to put this Drive over, and a good guess is that the E Bonds total will show a greater amount by the end of the week.

In order to allow for time in forwarding subscriptions and to make sure of credit to the Drive, purchases of bonds during the remainder of the week should be made by Saturday, July 29th.

### Airport Needs of Canyon Are Being Discussed By County Council

**Rural Electrification and Road Plans are Before the New County Group**

At the monthly meeting of the Randall County Planning and Development Council Monday night, a report was given by G. W. Cox on his trip to A. & M. College where airport management was discussed.

It was developed that it will take at least 10 years following the war before a half million private planes will be in use throughout the nation.

According to authorities heard at the conference, airports must be owned by municipalities or counties, but leased to private individuals for management.

Members of the Council have reached the conclusion that Canyon needs an airport because of the necessity for the college offering courses in aviation after the war. A committee was appointed Monday night to make a study of the local situation and to report at the August meeting of the Council.

According to press reports, Congress will assist towns in building airports where there is a need for such ports. So far as feeder lines are concerned, it is indicated that the government will not approve such lines when they must be supported by mail subsidies. The committee named to study the situation is composed of Clarence Thompson, Virgil Henson, W. A. Warren and Stuart Condon.

Rural electrification is being promoted by the Council in assisting the Southwestern Public Service Company in extending its lines as rapidly as possible. Raymond Batenhorst is chairman of this committee.

W. T. Oliver, chairman of the country roads committee, is working on a plan for a long range program over the county.

### New City Well Is Completed

**Ample Quantity of Water in Canyon Is Now Available to Citizens**

The new well of the City Water Department is ready for the water to be turned into the tower when needed. 450 gallons of water are pumped per minute from a depth of 500 feet. Chemical tests proved that this new well produces softer water than the old wells.

Double the quantity of water is now available for use. City officials urge the public to use all the water needed for irrigation purposes. The new well can be turned in at any time. To date none of the water from this well has gone through the city lines.

This well has been drilled on a cash basis. By paying City Taxes promptly each citizen can help keep Canyon on a cash basis.

Although they have to reach us from Switzerland, we have been receiving our food, clothes, and medical supplies from them. Yours' Dave.

### Rain Again Holds Up Harvest; Now Near Year Normal

Canyon received .70 of an inch additional moisture this week.

Rain fell Thursday morning amounting to .20 of an inch; .05 on Friday; .45 on Monday evening.

These rains have again held up harvest over the county.

The total moisture for July is now 5.98 inches. This brings the total for 1944 up to 18.18 inches, which is practically a normal annual rainfall for the county.

### Cantrell Is Re-elected Sheriff; Ins Over State Are the Usual Winners

Randall county will have the same official family during the coming two years, according to the Democratic primary held Saturday.

The only contest for county office resulted in the re-election of Sheriff M. E. Cantrell over W. L. Lyons. Cantrell received 1,024 votes; Lyons, 252.

A write-in campaign was conducted by T. V. Slack against Clyde Warwick for County Chairman. Warwick received 921 votes; Slack, 342.

County candidates who were re-elected without opposition were:

A. H. Hunt, County Judge.

C. R. Flesher, County Attorney.

A. B. Holt, County and District Clerk.

Mrs. Elzie Price, County Treasurer.

County Commissioners: No. 1, G. B. Heath; No. 2, Clarence Beckman; No. 3, D. S. Hill; No. 4, Calvin Casey.

Justice of the Peace: No. 1, B. F. Machen; No. 4, Mrs. W. J. Flesher.

Randall county voters followed the lead of voters over the state in voting for State and district officers who were running for re-election. Former State Representative Lee Satterwhite received a majority vote in the county for Lieutenant Governor as a compliment to his past services to this district.

The question of a second primary will be decided Saturday by the County Executive Committee. However, several precinct chairmen have expressed their opposition to a second primary because of the light interest in the first primary, and the fact that only two state offices are to be filled.

The vote by precincts on the contested races are printed in this issue of The News.

### Convention Next Saturday to Name State Delegates

Only 35 voters attended the Democratic precinct convention Saturday.

S. B. Orton presented a resolution calling upon the September State Democratic Convention to seek a pledge from the electors to support the nominees of the party.

Clyde Warwick presented a substitute set of resolutions endorsing the efforts of the National Democratic administration to bring the war to a successful end, and to write a permanent peace.

Complimenting the officials of Texas for their economical administrations which is freeing the state of debt;

Approving the efforts of the State Democratic Executive Committee in its efforts to free the party from domination of the CIO and other Communistic agencies;

According to all rights of citizenship to all minorities in the state;

Calling upon the electors to represent the will of a majority of the voters in November;

The election of unbiased and unprejudiced delegates to the State Convention who shall work with the majority of Democrats of Texas to building a civilization for the benefit of future generations.

The substituted resolutions were adopted after considerable discussion.

County Chairman Clyde Warwick has called the county convention to meet Saturday afternoon at 2:30 o'clock. Delegates will attend from practically every precinct in the county.

Delegates elected from Precinct No. 1 were: G. B. Heath, J. D. Barker, Mrs. Thos. B. McCarter, F. E. Savage, M. O. Slack, J. W. McCrery, Dr. S. H. Condon, W. J. Wooten, Mrs. J. R. Sharp, G. G. Foster.

Mr. Stratton lived in Randall county from 1900 to 1913. He was here on a visit in March.

This was the first death in the family since 1885, according to C. H. Stratton.

### Election No Surprise

The Texas primary Saturday was no surprise. It was distinctly a year for the "ins." Those who were trying to oust incumbents had a hard job all over the state, according to reports.

Governor Stevenson defeated eight opponents, receiving practically 90% of the votes. Practically all incumbent of State offices won in the first primary.

It is probably that only two state offices must be filled by the second primary: Attorney General, and Justice of the Supreme Court. There will probably be no second primary in Randall county. Not more than 50% of the qualified voters went to the polls when there was some races of local interest. What interest could there possibly be in the two carry-over state races. Large numbers of smaller counties of the state will skip the second primary, since all of the expenses are paid by local candidates. Holding an expensive election for the benefit of probably 150 or 200 voters is no economy.

Venerable Josephus Daniels, much loved distinguished delegate from North Carolina, Wilson's Secretary of the Navy and Roosevelt's Ambassador to Mexico, gives the best description of why the Democratic party must stick to FDR for a fourth term. Before the convention, Daniel said: "We are a party of minorities. There is the South, where the party is strongest. Yet no Southerner can be elected President. One of the biggest Democratic groups are the Catholics, yet no Catholic can be President. Another group is the Jews and no Jew can sit in the White House. Finally, there are the Negroes, and they are excluded from being President. Thank God," concluded Daniels, "for Franklin D. Roosevelt. . . . That is why Roosevelt has to be renominated by the Democratic Party."

We hope that the citizens of Randall county will keep in mind the unfavorable criticism which has been heaped on this good county by the passage of political resolutions which are diametrically opposed to the will of a majority of the people of Texas. Randall county has been embarrassed upon other occasions by erratic actions of local citizens. The community has not recovered, and will never recover from these foolish things. The only manner in which these things can be avoided is for the citizens to be on their toes and to hold in check individuals or groups who do not represent the ideals of this community.

Tojo is out as war lord of Japan. The successes of the United Nations against the Japs is more than the tricky little yellow devils can stand. American forces are several months ahead of schedule on their march toward Tokyo. We have been led to believe in the past that the last Jap will die in defense of the home land, but from recent developments the picture may be changing very rapidly. Maybe a lot of Japs would like to live to see another day.

Our fighting men on the front lines are not letting us down. They are doing a tremendous job of fighting a relentless foe. But what about the home front? We are \$400,000,000 behind schedule with the production of war materials, according to Donald Nelson. Too many strikes; too many workers shirking on the job; too many absentees. The home front is the weak front at the present time.

### A Winning Ticket

When the President allowed Vice President Henry Wallace and Judge Jimmie Byrnes to be pushed aside to make room for Senator Truman on the ticket, it was for the purpose of presenting the strongest ticket possible to the voters in November.

The President wants to win; the office holders, millions in numbers, want him to win; the Democratic party wants to continue in office.

Wallace was the sore spot in the party. His idealology could not be accepted by the conservative element of the party. The President knew that the revolt in the South against Wallace was genuine. He could not afford to continue slapping the South in the face and expect that the solid Democratic states would continue voting for him. He has a sort of feeling that the 4th term is very unpopular, and that it would not take much to alienate the voters in many states.

Senator Truman is reported to be a solid, honest individual. After bragging about the age of the men who are conducting the Democratic affairs of the nation, the convention could not afford to pick up some young man like Governor Kerr of Oklahoma. The party could not afford to risk another young man, who might talk too much, as Wallace has done.

The revolt in the South was based pretty much on the idea of getting rid of Wallace. Since that has been accomplished, there will be no further difficulty. The electors of Texas will not bolt the ticket, as some fear, and Texas voters will all continue voting the Democratic ticket.

The people are not going to trade horses in the middle of the war. The Republicans are at a distinct disadvantage in offering two men who have never had national responsibilities. Dewey was afraid to even venture an opinion on a foreign policy until he was certain of nomination. His foreign policy is of the Charlie McCarthy type, and comes from the block of isolationists who put his nomination over.

Wall Street is betting that Roosevelt will win, in spite of the fact that the Street will vote for Dewey. These gamblers know that the people are not going to defeat the man who holds the key position during the war, and will have so much to do in writing the peace. The News predicted months ago that Roosevelt would be nominated; that he would accept; and chances were good for his election. We are going to back this prediction with our support.

What about the opposition to the New Deal which has been expressed in these columns during the past month? Every word that we have said still stands. There is a whole of a job ahead for sane Democrats to clear up the party. But it will be easier to rid the party of the undesirable elements who are now in control of so much of its activities than to purify the nation should the nation fall into the hands of Dewey and the isolationists.

Roosevelt and Truman will win in November.

The News is accused of being too hard on the poor CIO members. Sure they have a right to organize and fight for their rights, even to politics; but they gave a pledge not to strike against the nation during the war; and strikes continue. Three big CIO strikes were pulled off in Chicago while CIO was trying to cram Wallace down the throats of the delegates. One strike was caused by a CIO worker's being fined after he had been found asleep on the job; the balance of the workers walked out. Another strike was called when a number of qualified workers were promoted without the consent of the balance of the men. Such strikes are un-American and have no part in a civilized nation which is fighting to preserve liberty to all its citizens.

Hitler may not know it, but his military men know that Germany is whipped. The revolt against Hitler may be serious, or may be another case of propaganda, hoping that the United Nations will not push the war too hard. Hitler is said to be urging his troops to hold out until after election in November, hoping that Dewey will win and that America will be willing for a more lenient peace by that time. Maybe some more propaganda.

Please, Senator Hazlewood; please, Representative Little; amend the election laws so that eight candidates will not run for governor knowing they will not receive a hatful of votes. Charge them at least \$750 to get their names on the ballots, and then distribute at least \$600 of that sum to the counties in order to assist local candidates defray the expenses of local elections.

Stars visible to the naked eye, all at one time, number around 2,000.

"Long distance calling, sir," the valet reported. "A trans-Atlantic call from London."

The rich man nodded wearily. "Let's see," he said, "that's about 3,000 miles from here."

"Just about," the valet agreed. The rich man sighed. "Then hang up," he directed. "I'm too tired to talk that far."

### HYPERBOLE?

An old Scottish woman was wandering around the local museum with her grandson. Then they came to the usual statue of Venus de Milo, with half an arm missing on one side and the whole arm cut away on the other.

"There ye are, my lad," said the old grandmother, wagging her finger at the youngster. "That's what comes o' biting your fingernails."

Boot: "May I have the last dance with you?" Debutante (limping a little): "You have just had it."

### NO SECRET

Two business men were riding on the subway, sitting side by side, looking harrassed and worried, but saying nothing.

One of them heaved a long, deep sigh. "You're telling me!" said the other.

Male voice: "Say, Mabel, may I come over tonight?"

Female voice: "Sure, Bill come on over."

Male voice: "Why, this isn't Bill."

Female voice: "Well, this isn't Mabel either, but come on over."

## Must Stop Waste Gas By Leaving Motors Idling

Bus and truck drivers who waste gasoline by letting their motors idle while in terminals or on service routes were cautioned by N. F. Nelson, of Amarillo, district manager of the Highway Transport Department of the Office of Defense Transportation.

"ODT has requested that bus and truck drivers co-operate in conserving gasoline by turning off their motors when vehicles are not in use," the district manager said. "However, letters of complaint still call attention to cases where fuel is consumed by idling motors, while motorists are restricted in travel by gasoline rationing."

Excessive operation of bus motors at terminals or rest stops is one of the main objects of complaint. In such cases, bus passengers often include motorists who have been compelled to store their cars for lack of gasoline, it was pointed out.

## TOO CHEEKY

A druggist was peacefully snoozing in bed one morning at 4 o'clock when he heard a heavy pounding on his front door.

He managed to rouse himself a bit and call out the bedroom window, "Who's there—and what d'you want, anyway?"

"I'm Mrs. Perkins," a squeaky voice replied, "I'm starting out on a vacation trip, and I want to buy a box of rouge."

"I'm sorry, lady," replied the fuming druggist, "but I haven't enough rouge in stock to cover your cheek."

A jokey fellow was visiting a grade school which he once attended, and after listening to the pupils saying their numbers, he was asked by the teacher to make a little speech to them.

"I've often heard it said before," he began, "but now I'm sure the old saying is true, that it is the 'little things' that count."

A racketeer on trial for murder bribed an Irishman with \$100 to hold out for a verdict of manslaughter. After being out for a long time, the jury returned the verdict desired.

Racketeer (to Irishman): I'm very grateful to you. Did you have much trouble?

Irishman: Faith, and we had a devil of a time. All the rest wanted to acquit you.

The way of the transgressor is hard on his associates.

## GOODBYE, MY LOVER

I see you slam the door As oft you have before, And I sigh as you depart with angry mien.

Emotions grips my heart; For I know as you depart That this has been our last—our final—scene.

I feel it cannot be You'll ne'er return to me— You who've called on me beseeching oft before;

Your last collection's made, Yes, the last installment's paid, Boy, I'm glad I'll never see you any more!—Evelyn Mullenax.

Rastus: What's that word "matrimony" mean?

Sambo: That ain't no word—tha's a sentence, man.

## TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

### REMINDERS

Meats, Fats: Red stamps A8 thru Z8, good indefinitely. A5, B5 and C5 become good July 20 and remain good indefinitely.

Processed Foods: Blue stamps A8 through Z8 and Z5, good indefinitely. B5 through F5 become good August 1 and remain good indefinitely.

### FSA LOANS ASSIST VETERANS

Farm operating loans have been made to several hundred honorably discharged service men who had no other source of credit to finance food production, the Department of Agriculture announces. These Federal Security Administration Loans are enabling Veterans of the present war to lease or buy farm land and to obtain all the necessary equipment and facilities needed to start their farm operations.

### FOOD ALLOTMENTS FOR FARM HELP

Farms, ranches and other non-institutional employers of seasonal workers may now apply for allotments of rationed foods to feed workers hired for 60 days or less, the Office of Price Administration announces. Previously, allotments were granted for 30 days or less. Farm workers employed for more than 60 days must continue to turn in their ration points to their employer for food served that required points.

### UNITED STATES WAR EXPENDITURES

For the fiscal year, 1944, United States War Expenditures were \$89,900,000,000, as compared with \$75,100,000,000 for 1943—an increase

of almost 20 per cent—the War Production Board announces. U. S. War Expenditures amounted to \$199,900,000,000 from July 1, 1940, through June 30, 1944.

### MANY STATE ROADS NEED REPAIRS

Many state highways will be in need of repairs and rebuilding by the end of the war, according to an office of War Information report, based on data from the public roads administration and state and private agencies. At present, the most impressive immediate program calls for improving 34,000 miles of rural and urban highways as recommended by the National Interregional Highway Committee. Final action by congress is pending.

### ELECTRIC IRONS COMING IN FALL

Of the 2,037,838 electric irons already authorized for civilian production, about 99 per cent will be household models, mostly automatic, and the remainder, commercial models, WPB says. The irons will not be rationed and some of them are expected to be available in the fall.

### HANDLERS ARE BURNING USED BOXES

Large numbers of used containers are being destroyed because there have been no requests for them, the War Food Administration warns. Handlers of used orange boxes, for example, are burning them up by the thousands because many farmers have not as yet accepted these usable boxes as substitutes to pack their particular crops. Orange boxes are adequate and suitable to send many different kinds of crops to market, and farmers are being urged to ask their suppliers for as many of these used containers as they may need. Farmers should get their orders in immediately since handlers of used baskets and boxes are saving only

## 'How's Business?'

those they are asked to save, WFA says.

### OPA REDUCES OATS CEILINGS

An average reduction of five cents a bushel in the ceiling prices of oats has been announced by OPA. New base prices at terminal base points range from 71 cents at Seattle, Washington, and Portland, Ore., to 83½ cents at Philadelphia, PA. OPA says the new prices will reflect parity to producing farmers during the current crop year.

### NEW NON-HIGHWAY GAS COUPONS

New, non-highway, serially-numbered gasoline coupons, E-2 and R-2, are being issued in strips to farmers and other non-highway users, OPA has announced. The new coupons will be good concurrently with the E-1 and R-1 coupons now in circulation. The five-gallon R-2 coupons are printed in blue ink, and the one-gallon E-2 coupons in black ink. While neither of the new coupons is good for highway use, the E-2 specifically carried the legend—"Not good for obtaining gasoline to propel registered vehicle."

### ROUND-UP

Under the "Corn-For-War" Program, war food administrator Marvin Jones said, "Farmers have fought the war as truly as though on the battle-front," by providing almost 68 million bushels of corn for the manufacture of essential war materials. . . . The 63,637 Mexicans now working on farms in 17 Western States represent the largest number employed at any time since the program to use Mexican workers was started in September, 1942, WFA reports.

The first counterfeit among the serially numbered gasoline coupons, A B-3 has been picked up by an OPA investigator in western Pennsylvania, and OPA has warned the trade to check coupon endorsements against license numbers. . . . Persons who lose their war ration books no longer are required to advertise the loss before replacements are made, OPA says.

Department of Agriculture scientists have discovered in bright or fluo-cured tobacco a valuable glucoside, rutin, that is effective in treating conditions arising from high blood pressure. . . . Chicks produced by commercial hatcheries during the first six months of 1944 totaled 1,035,471,000 compared to 1,290,316,000 for the same period last year—a decrease of 19.8 per cent—USDA reports. . . . of the approximately 11,355,000 workers on farms in the United States, July 1, those who received wages were paid at the highest rates on record, USDA says.

WPB announces—Wide, new uses of aluminum for essential products are now permitted. . . . Unlimited use of glass containers for the packing of most foods, drugs and health supplies is now permitted.

A motorist was a hundred yards from an open railroad crossing and was proceeding at 55 miles an hour. A train was also approaching at 60 miles an hour, and its distance from the crossing was 165 yards.

Problem: Did the motorist get across?

Solution: Yes, the motorist got a cross. His widow bought it out of the insurance.

## The proudest title in the Army

IT CONSISTS of two simple words.

Yet every soldier who's worth his salt covets it.

This title is simply:

"Good Soldier."

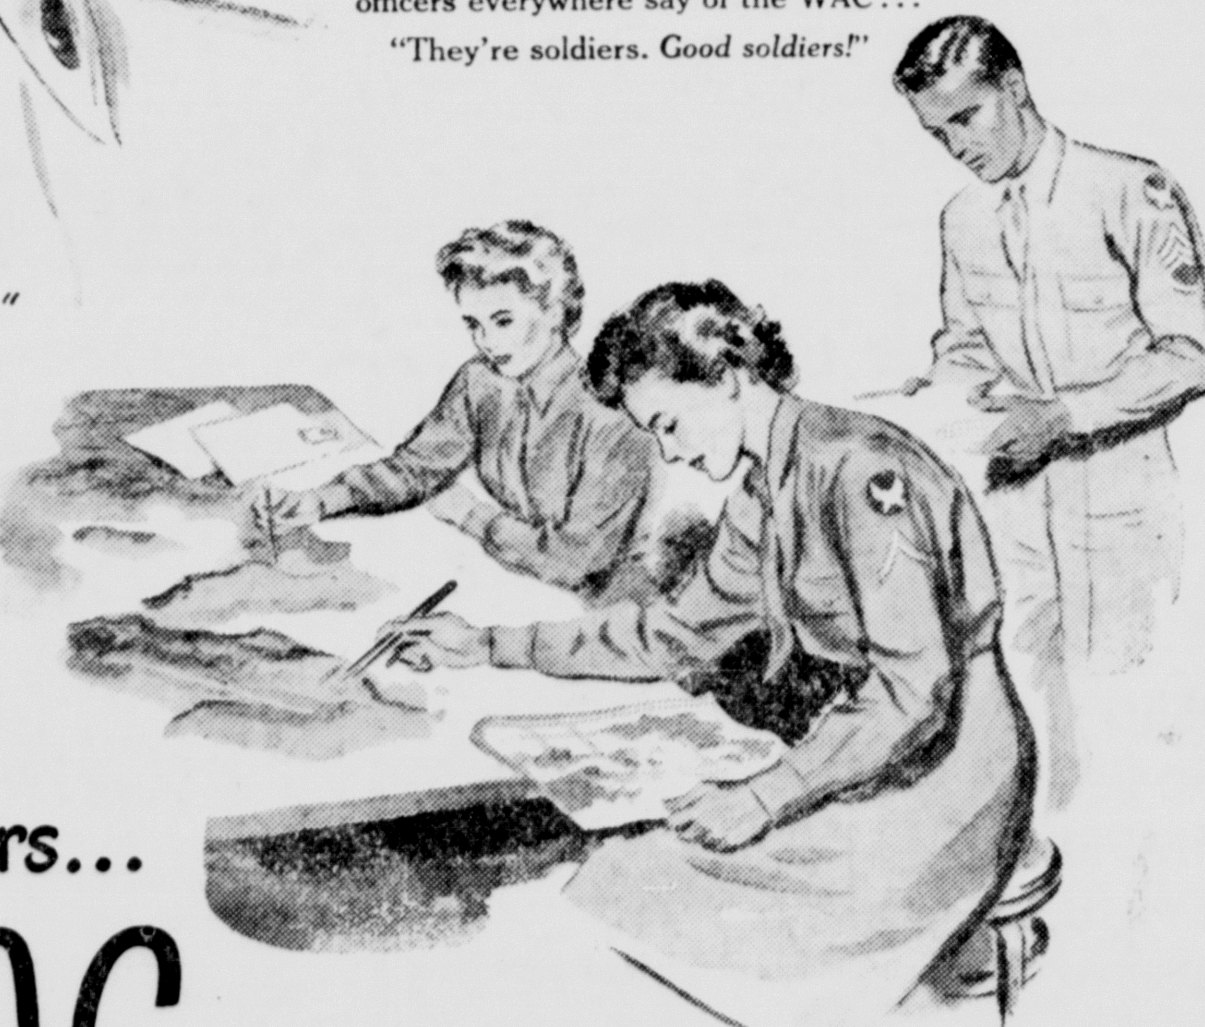

It isn't just happenstance that so many women in the WAC have earned this title—the proudest in the Army.

For wherever Wacs are working, both here and overseas, there you find a job well done. And done with a spirit so gallant and fine that high Army officers everywhere say of the WAC . . .

"They're soldiers. Good soldiers!"
